Bug Report:

System accepts changing PIN with letters instead of numbers

Test object: Change PIN

Environment: Android 16, Chrome

Preconditions:

1. The website is open
2. The account is available and not blocked
3. The account is logged in

Steps:

1. Go to Change PIN.
2. Enter a PIN made of letters.
3. Confirm it.

Expected Result:

1. The system rejects the PIN and error message is shown to the user

Actual Result:

1. The system accepts the PIN with letters
